

# Printing requirements

Jamo Solutions Ltd

## Printing requirements

1. The file containing the graphic design (artwork, project) should be prepared in a vector format and adapted to the template of a given size.
2. The templates are available for download at <https://jamosolutions.co.uk/50-printing>
3. The following file extensions are accepted:
  - a. .PDF (preferred),
  - b. .AI,
  - c. .EPS,
  - d. .SVG,
  - e. .WMF
4. Before saving the project, the fonts used in the project should be converted into curves.
5. It is not recommended to use any bitmap elements in the artwork, as this may negatively affect the quality of the print. If there is a need to include a bitmap element in the project, the image should be of very high resolution.

*The artwork that does not meet the above requirements will not be accepted for printing.*

*If you have any questions regarding the printing requirements, please feel free to contact us (02033719569, [info@jamosolutions.co.uk](mailto:info@jamosolutions.co.uk)).*
